HIGHLIGHTS

- Skilled Data Scientist and ML developer having +4 years of experience in designing and developing end-to-end ML and data pipelines.
- Demonstrated strong teamwork, representation, and leadership by collaborating with diverse individuals, eagerly tackling new challenges and adapting flexibly to evolving project demands.

EXPERIENCE

Spatial Data Analyst

March 2025 – June 2025

CLIK - Connection Lab and Innovation Kitchen

Turin, Italy

- Improving the map section of the PoliTo Student App by fixing bugs and applying innovative solutions

Software Technician and Database Manager

Oct. 2020 – Jan. 2021

Ministry of Education

Behshahr, Iran

- supporting and enhancing the technological infrastructure and data management systems critical to the educational sector.

EDUCATION

Master of Science | *Data Science and Engineering*

Oct. 2023 – Present

Polytechnic University of Turin - (Website)

Turin, Italy

Bachelor of Engineering | *Computer Engineering, Software*

Sep. 2017 – Feb 2022

Mazandaran University of Science and Technology - (Website)

Behshahr, Iran

TECHNICAL AND SOFT SKILLS

Languages: Persian (Native), English (B2), Italian (B1)

Programming: Python, R, Java, C++, SQL, JavaScript

NLP: NLTK, Spacy, Gensim, Hugging Face, Stanza

Databases: MySQL, MongoDB, PostgreSQL Microsoft SQL Server, SQLite

Libraries: Sklearn, Keras, Pytorch, PySpark, Tensorflow, Pandas, Numpy

Visualization: matplotlib, Plotly, ggplot2, Tableau, Microsoft Power BI, LIME, Streamlit

Tools and Frameworks: Hadoop, Spark, Azure ML Studio, Linux, Git, Google Earth Engine, Google Street View

RELEVANT PROJECTS

Natural Language Queries for Egocentric Vision

[egocentric-vision.git](https://github.com/egocentric-vision)

Polytechnic University of Turin

- This project enhances egocentric video understanding by improving VSLNet with EgoVLP features, BERT encoding, and pretraining on queries generated by Gemma-2b, achieving better localization of answers to natural language queries in the Ego4D NLQ benchmark.

Text Summarization

[text-summarization.git](https://github.com/mauriziopetrini/text-summarization.git)

Polytechnic University of Turin

- Engineered an abstractive summarization pipeline using Longformer and LLMs (Claude, Mistral) to reproduce the SigExt framework across four benchmark datasets and extended the baseline by introducing Negation-Aware prompting to mitigate factual polarity errors and an Adaptive-K dynamic budgeting algorithm that improved ROUGE scores for long-form texts.

ProMPT - Professional Modeling Prompting Tool

[ProMPT.git](https://github.com/mauriziopetrini/ProMPT.git)

Polytechnic University of Turin

- This study highlights the untapped potential of AI in post-conflict recovery and peacebuilding. It introduces a taxonomy of post-conflict issues, a tool that generates AI solution prompts and impact assessments, and evaluates the tool's effectiveness in improving decision-making through a real user study.

Polito Student Application

[polito-student-app.git](https://github.com/mauriziopetrini/polito-student-app.git)

CLIK - Connection Lab and Innovation Kitchen

- Developing an innovative and user-friendly solution to resolve bugs and enhance the map functionality of the PoliTo Student Application, utilizing QGIS, PostgreSQL, and advanced routing algorithms for improved spatial data handling and navigation.

American College Admissions Analysis

[datamining-college.git](https://github.com/mauriziopetrini/datamining-college.git)

Mazandaran University of Science and Technology

- Developed and optimized statistical machine learning models to predict future college admissions, using R scripting language.

Particle Coordinates Analysis

[particle-coordinates.git](https://github.com/mauriziopetrini/particle-coordinates.git)

Polytechnic University of Turin

- Implemented an efficient method for accurately predicting two-dimensional spatial coordinates (X, Y) of particles based on signal features extracted from detector pads

INTERNATIONAL COMMUNITY ENGAGEMENT

Participant

April 2026

Stowarzyszenie Youth Human Impact

Tykocin, Poland

- A 10-day training course focused on building effective development strategies and securing European funding for NGOs, collaborating with NGO leaders and members from 9 different countries.

Participant

13th Jan. - 9th Feb. 2026

University of Sapienza

Online

- Completed an online train-the-trainer course focused on internet safety and artificial intelligence in youth work.

Participant

March 2026

Teatro della Zucca

Valverde, Italy

- An 8-day youth exchange focused on making art accessible and fostering self-expression among young people. Engaged in community-driven learning modules on creative dialogue, collaborating with participants to promote art as an inclusive tool for everyone.

Co-Facilitator

November 2025

Synergy Youth NGO

Yerevan, Armenia

- Designed and facilitated a 12-day youth exchange project for 30 high school students, utilizing non-formal learning techniques and nature-based workshops to foster resilience, emotional well-being, and inclusivity.
- Participant** November 2025
Udruzenje mladih "Logos" Rettenegg, Austria
- A 9-day training course focused on integrating sustainability into youth work. Engaged in non-formal learning modules on the circular economy and SDGs, collaborating with youth workers from 9 different countries.
- Participant** October 2025
Associazione Caleidoscopio Paola, Italy
- An 8-day youth exchange project promoting social inclusion across Italy, France, Belgium, and Greece. Collaborated with 33 peers to bridge cultural gaps through artistic workshops (dance, video-making) and non-formal education, culminating in the co-creation of a public Intercultural Festival.
- Participant** September 2025
Estacion Esperanza Caldirola, Italy
- a 10-day international youth exchange involving participants from 6 countries (Italy, Spain, Hungary, Romania, Ukraine, Armenia). Explored the intersection of mental well-being and environmental ethics through outdoor education and workshops on sustainable food systems and ethical consumption.
- Participant** September 2025
Protect Work Organization Tale, Slovakia
- A 9-day training course enhancing youth workers' skills in participation, policy, and engagement, using tools like the Ladder of Participation, 5 Steps to Municipality, SWOT analysis, and the Democracy Reloading Toolkit to foster cooperation and innovation in youth work.
- Participant** July 2025
Nui APS Organization Pisa, Italy
- A 9-day youth exchange project using theater to explore European identity, diversity, and shared values, fostering dialogue, self-expression, and inclusion through collaborative performance.
- Participant** March 2025
Instytut Przeciwdziałania Chorobom Cywilizacyjnym Zakopane, Poland
- An 8-day youth exchange project to explore themes of tolerance, diversity, and discrimination in Europe. Through creative and non-formal methods, the project raised awareness, shared perspectives, and looked for inclusive solutions.
- Participant** February 2025
Forward4Future Vienna, Austria
- An 11-day training course equipped young people in disadvantaged areas with entrepreneurial skills, helping them create job opportunities and drive economic growth. Participants also gained access to EU funding programs to support their initiatives.
- Participant** December 2024
Vakıf Ay Derneği Koceali, Turkey
- This 9-day youth exchange project equipped youth with skills in disaster preparedness, response, and resilience through workshops, discussions, and cultural exchange, fostering proactive leadership and stronger communities.
- Participant** November 2024
Platforma Integracji Młodzieży Poronin, Poland
- This 9-day youth exchange project helped improve work-life balance by providing practical strategies for managing stress and enhancing mental and physical health. It offered engaging tools to reduce overload and promote overall well-being.
